### Shelf Life:

To preserve product quality, cool dry storage at ambient temperature avoiding temperature fluctuations where possible with regular inspection and stock rotation is recommended. As flour and grain related products are attractive to a range of insects and rodents, effective pest control and GMP are required as post delivery storage is outside the control of Ben Furney Flour Mills. Our recommended shelf life for this product is 6 months under these recommended conditions, however no responsibility will be accepted for infestation or mould once product has been accepted into customer storage if not reported at or within 7 days of receipt.

### Transport Conditions:

To be transported in food grade vehicles at ambient temperatures away from moisture and strong odours. Avoid exposure to direct sunlight as this may create temperature fluctuation and product sweating.

### Microbiology Guidelines:

This product is a minimally processed agricultural ingredient and as such is not a "Ready-to-Eat" food. It is therefore not intended to be eaten raw and as such complies with general food microbiology standards only. No specific standard applies to this product. Microbiology is monitored on a HACCP random validation basis only not by batch.
